How to Access our School Newsletter

We have recently changed the program that we use to produce our newsletter. It is now more user friendly in the digital format and will adapt your view depending on the size of the device you are reading it on. Embedded photos can be clicked on to view in full screen mode and also has a function for people with a vision impairment.

There are three ways you can access the new format newsletter:

- **email:** join our newsletter email list at tabletop-p.school@det.nsw.edu.au
- **School Stream:** download the School Stream phone app for access to the newsletter and other school information and notices <https://www.schoolstream.com.au/download/>
- **Click** on the link below
